Webinar Registration:

<https://www2.gotomeeting.com/register/728846898> (for Wed.)

<https://www2.gotomeeting.com/register/822106586> (for Thu.)

Questions / Comments / Open Member Dialog:

Susan Kemp indicated that the CERP (Comprehensive Everglades Restoration Plan) Southern Coastal System (SCS) Salinity Performance Measure document (available at http://www.evergladesplan.org/pm/program_docs/docs_public_review.aspx) is open for public comment until June 4, 2012.

GS indicated that the FL Lake Management Society will be holding their annual conference on June 18-21, 2012 in Gainesville, FL. Mark Hoyer will be presenting information on the FWRMC, and providing sign-up sheets for attendees to get involved through FWRMC email distribution lists, Regional Councils, and the Monitoring Catalog effort.

Carol Kraft (CK) asked that the information received from the potential collaborators for the FWRMC Monitoring Catalog be distributed before the June meeting. GS indicated that Kate Muldoon will prepare and distribute a summary of the requested information. CK also suggested adding clarification / discussion of the process that the Council intends to follow to develop the final scope of work and RFP for this project.
