

Agenda
Catalog Workgroup Meeting
July 14, 2016
2:30 – 3:30 pm

Please:

- **announce your name before you make a comment**
- **mute your phone if you're not speaking**
- **refrain from putting your phone on hold**

A. Highlights of meeting with USF

1. Redesigned home page
2. Using Google Analytics to identify priority searches -> ensure that metadata are complete for these orgs/projects
3. Potential: canned searches for areas of interest such as Lake O, IRL, LSJR, Caloosahatchee, etc., and restoration projects
4. Request that Council members link to the Water-CAT on their agency/entity websites
5. Updating Water-CAT with themes, keywords so need theme definitions for data providers

B. Themes

- o Regional ecosystem assessment
- o Trend analyses
- o Habitat assessment
- o Regulatory
- o Research
- o Resource management
- o Potable water supply
- o Saline intrusion
- o Other
- categorized data provider projects and programs to themes
- developed **keywords** as filters to assist users (see *Keyword Suggestions* as example)
- in process of developing **theme definitions** to assist data providers and users (see *Themes – Draft Definitions*)

C. Your homework

C. Next steps for Catalog Workgroup
