Thank you for your SDS request. According to current OSHA regulations found in Title 29 of the CRF, section 1910.1200 pertaining to the 2012 Hazard Communication Standard, it is neither required nor encouraged to supply and/or maintain Safety Data Sheets for non-hazardous products. GHS criteria classify the following products as nonhazardous.

(C1065-100) Conductivity Standard 100

(C1065-1000) Conductivity Standard 1,000

(C1065-5000) Conductivity Standard 5,000

(C1065-10000) Conductivity Standard 10,000

(C1065-50000) Conductivity Standard 50,000

Please continue to use caution and practice general laboratory safety procedures while handling even non-hazardous substances.
