

The map displays a large, irregularly shaped area shaded in light purple, representing a water body or wetland. This area is bordered by a thick, dashed yellow line. A blue line, labeled "McKay Creek", runs diagonally through the purple area. The label "Taylor Lake" is positioned near the top left of the purple area. A yellow label "1633A" is located near the top center of the purple area. A small, irregularly shaped area to the right of the main purple area is labeled "1633B". Two small purple circles are visible: one near the top right corner of the purple area and another near the bottom left corner. The background is white with faint yellow grid lines. A title box at the top center contains the text "WBID 1633A - TAYLOR LAKE" in bold black letters.
