Hi Kara:

Sorry for the delay on this, I have been out of the office for a dental procedure for several days and am just catching up on e-mail now. To the best of my ability to recall, I believe that the sample was taken at 11:10. I collected the sample but C. Ruben transcribed times onto the ALS paperwork and may have misread my writing. Also, that RQ should have been RQ-2019-07-08-14, (not RQ-2019-07-10-03) to have included that site. I hope this helps.....

Amy

Hi Amy,

For this RQ, event ID NE-DIST-2019-07-10-03, the chain of custody sent to the Central lab shows field ID 20030725 being sampled at 11:10 but the ALS chain of custody says 11:00. Which one is correct? I know it's only a difference of ten minutes, I just like to have a note from the sampler.

Thanks!

Kara
