"Sample Type" is used to indicate whether the sample was a grab (G) or whether it was a composite (C).

"Sample Matrix" is used to indicate whether the sample is being discharged to drinking water (DW), groundwater (GW), surface water (SW), fresh surface water (FSW), salt surface water (SSW), soft sediment (SDMT), or sludge (SLDC).

"Container Type" is used to indicate whether the container is plastic (P) or glass (G).

Sample must be refrigerated or stored in wet ice after collection. The maximum temperature during storage should be 6°C (42.8°F). Under "Preservative," list any preservatives that were added to the sample container.

The following information should be added to each bottle labeled after collection with permanent black ink: date and time of collection, sample's name or initials, and any field number or ID.

The client is responsible for documentation of the sampling event. Please note special sampling events on the sample receipt form.
