

WBID 2406B - DEEP CREEK (FRESHWATER SEGMENT)

This map displays the Deep Creek (Freshwater Segment) area, which is highlighted in pink and outlined with a thick yellow dashed line. The segment is situated within a larger watershed area, with various water bodies and land features labeled. Key features include:

- Water Bodies:** Snowden Bay, Dry Swamp, Twelvemile Swamp, Smith Creek, Sweetwater Creek, and Deep Creek.
- Roads:** 2365, 23631, 2400, 2419, 2411, 2429, 2442, 2451, 236312, and 2406C.
- Points of Interest:** 21FLA G5NE0017 and 21FLA 27010190.

The map also shows a network of roads and a yellow dashed line indicating a boundary or route. The area is characterized by a mix of green (land) and blue (water) colors, with the pink segment representing the specific focus of the study.
