Hi guys,

For this RQ, event NE-DIST-2020-08-28-02, the samplers say below that the sampling time for field ID 20030491 should have been recorded as 1020, to match the overflow lab COC.

Thanks,

Kara

I would love it to be that simple but the bottles likely say 1020 on them so really I should edit our field sheet to show the correct time . Once I do that I can send it back to you and everything will be ok?

Hi Brian,

The ALS coc has field ID 20030491 being sampled at 1020 and the DEP coc at 10:19. I know it's literally a minute different but they have to match. Can we just put a note on the ALS report saying it should be 10:19? Sorry I have to be so nitpicky!

Thanks!
