Good afternoon. I've attached the microbiology report for RQ-2020-10-12-48 samples collected 10/14/2020.

Note: The original Sample Transmittal Form (submittal sheet) for this sample set was incorrect regarding requested analyses. Due to a typo, the analytes were in reverse, but the samples had already been analyzed per those instructions. The original analyses requested are shown on the attached transmittal form (which we subsequently "lined through" and manually wrote the correct analyte after the typo was discovered). The samples were reanalyzed by the correct analyses within holdtime. Since the original analyses listed had already been performed we included those results on this deliverable as well as the correct analyses/results.

The sample analyzed by **SM 9223B (Colilert-18 QT)**, *with analysis time listed as 16:30*, was incubated from 10/14/2020 (16:30) to 10/15/2020 (12:15).

Samples analyzed by **SM 9223B (Colilert-18 QT)**, *with analysis time listed as 15:00*, were incubated from 10/14/2020 (15:00) to 10/15/2020 (11:03).

The sample analyzed by **Enterolert (QT)**, *with analysis time listed as 14:20*, was incubated from 10/14/2020 (14:20) to 10/15/2020 (14:55).

Samples analyzed by **Enterolert (QT)**, *with analysis time listed as 16:20*, were incubated from 10/14/2020 (16:20) to 10/15/2020 (16:49).

Thank you,
