Yes discard as guidance dictates. We will reschedule those.

Subject: Late Arrivals-Expired Samples

Good morning, I received RQ-2021-01-18-41 and found that some of the sites were expired upon arrival, samples for site "Bay Branch Upstream of HWY 331/G3NW0171" arrived later than expected and some of the short hold samples will need their data qualified, would you like said samples to be discarded as per our SMP Protocol? The affected samples are the PO4 and the Turbidity/Color of the 1 Liter.

Let me know if you have any questions!

Ian McCoy
Laboratory Technician IV
850-245-8062
Florida Department of Environmental Protection

SMP Project

Login Protocol

The SMP project can't (with certain exceptions) use either Y or Q qualified data and would rather have Receiving not login these samples. It's considered a waste of laboratory resources to analyze affected samples that will be qualified, and their data will not be used by the SMP project.

1. The SMP project does not want "Y" qualified preserved nutrients, unpreserved nutrients, microbiology, Chlorophyll, or metals data. (I.e. preservation NCR; acid or ice).
 - Preservation Exception: qPCR and organic samples (They still want these data)
 - Preservation NCR ("Y" qualifier) are acceptable for temperature and chlorine detections for these analyses.

Note: *Unpreserved metals samples may be preserved/acidified in the lab upon receipt and do not need to be qualified if they are analyzed 24 or more hours after acidification.*

2. The SMP project does not want "Q" qualified preserved or unpreserved nutrients data. (I.e. Out of hold time).
 - Hold Time Exception: microbiology, qPCR, and organic samples (They still want these data)
 - Out of hold time ("Q" qualifiers) are acceptable for these analyses.

Sampler's initials : MB

Date/Time: 01/14/21 11408

Instructions: Fill in all fields except "Lab ID" on sample transport form completely. Each sample container must use a separate line. Place this form in a waterproof bag and place it with the samples for transport. If a field log or other chain of custody is attached, that information may be referenced on this form and the log or COC attached.
