	F / M / Grab	E. coli / Enterococci	Date & Time:	

Sample Type is used to indicate whether the sample was a grab (G) or whether it was a composite (C).
Sample Matrix is used to indicate whether the sample is being discarded to drinking water (DW), groundwater (GW), surface water (SW), fecal surface water (FSW), saline surface water (SSW), soil sediment (SDMPT), or sludge (SLDG).
Container Type is used to indicate whether the container is plastic (P) or glass (G).
Sample must be refrigerated or stored in ice after collection. The maximum temperature during storage should be 6°C (43°F). Under "Preservative," list any preservatives that were added to the sample container.
Each bottle has a label identifying sample ID, preservative, instrument, and container. In the bottle, sample type, client ID, and parameters for analysis.
The following information should be added to each bottle label after collection with permanent black ink: date and time of collection, sampler's name or initials, and any field number or ID.
All bottles not containing preservative may be used with appropriate sample prior to collection.
The client is responsible for documentation of the sampling event. Please note special sampling events on this sample custody form.

Laboratory Sample Acceptability:
pH < 2.0 BEAS Temperature: 2.8°C
