Correct, all of the samples would have a "Y" qualifier. I will log in in the Bacteria sample.

Unfortunately, it looks like none of these should be logged in. All analyses results would get a "Y" qualification because of the preservations status, correct?

Sample ID G5NW0035 did have a Bacteria sample submitted to a contract lab.

Good afternoon,

Unfortunately this cooler got held up by Fedex and by the time we received it the ice had melted, causing the cooler to clock in at 7.4 degrees at the coolest. Going off the SMP, do you not want any of these sites to be ran?

Sorry for the inconvenience 😞

Thank you,
Kyle
