*Sample Type: "F" is used to indicate whether the sample is being discharged to drinking water (DW), ground water (GW), surface water (SW), fresh surface water (FSW), salt surface water (SSW), soil sediment (SDMNT), or sludge (SLDGL).

1. Each bottle has a label identifying sample ID, measurement, preservation, and date. The maximum temperature during storage should be 6°C (42.8°F). Under "Preservative," list any preservatives that were added to the sample container.

2. The following information should be added to each bottle label after collection: sample ID, date and time of collection, sample's name or initials, and any field number or ID.

3. All bottles and containing preservative may be mixed with appropriate sample prior to collection.

4. The client is responsible for documentation of the sampling event. Please note special sampling events on the sample custody form.

Laboratory Sample Acceptability:

pH < 2 : 0 BEAS Temperature: 21.1 °C
