

Florida Oceans & Coastal Resources Council

Research Review

Status of Council task:

Research Review

- Initial information collected by FSU Survey Research Center. Survey concentrated on research from last 10 years and gave researchers short turnaround.
- Survey results were returned to respondents for verification of content and clarification of PIs/contact names.
- Present survey results constitute the initial “working draft” of the Research Review.

Oceans & Coastal Resources Council

Status of Council tasks:

Research Review

- The Research Review is a long-term, continually-updated project to be posted on Council's website.
