

FLORIDA WATER RESOURCES MONITORING COUNCIL
COORDINATION STRATEGY TABLE
As of May, 2007

Step #	WHAT	WHO	HOW	WHEN
1 <u>Initiation of effort</u>	1a. Complete and analyze CAMA survey a. <u>there are other surveys that have been done, we need to leverage that, we should take what has already been done</u> b. <u>use the metadata survey to gather this information as well</u>			
	1b. Look for existence of freshwater version of CAMA survey			
	1c. Ask other portals what they would do different			
2 <u>Coordination of information</u>	2a. Identify extent of information needed to mesh information			
	2b. Achieve buy in/cooperation of monitoring sources			
3	3a. Identify or hold conferences/workshops/working groups where other data sources work			
	3b. Identify sources of freshwater and saltwater monitoring (CAMA monitoring survey partly did this)			
	3c. House survey			

FLORIDA WATER RESOURCES MONITORING COUNCIL
COORDINATION STRATEGY TABLE
As of May, 2007

	GIS/Mapping and Maintenance			
	3d. Identify the purpose/objective of monitoring			
4	4a. Identify administrators and technical personnel of each program			
	4b. Identify source and duration of funding and monitoring			
	4c. Identify the "what" of the monitoring			
	4d. Identify data sharing and data access method			
	4e. Identify geographic area			
	4f. Request or create shapefile of monitoring locations			
5	5a. Map			
6	6a. Perform gap analysis of freshwater/marine survey			
7	7a. Create a forum to enhance monitoring efforts			
	7b. Create a mechanism to update survey perpetually
