

A satellite map of the state of Florida, showing its coastline and internal land features. The map is oriented vertically, with the top of the state at the top. The land is depicted in shades of green and brown, while the surrounding water is dark blue. The map is partially obscured by the text on the left.

Florida Water Resources Management Council

Liaison Update

Steve Wolfe – Florida DEP
7/25/07

Budget

Awaiting resolution of the state's budget adjustment.

Ramifications of delays?

Oceans Council

July meeting canceled, public input postponed.

Lack of quorum because of summer conflicts.

Gulf of Mexico Alliance

All-Hands Meeting, St. Pete July 10-12 '07

➤ **Issues of interest:**

1. Adopted standard array of nutrient and phys-chem water quality methods for use across the Gulf of Mexico.
2. Chlorophyll method(s) to be decided in future workshop (tentatively September).
3. Designing coastal nutrient-based WQ monitoring and studies to support states' development of nutrient criteria.

Gulf of Mexico Alliance

All-Hands Meeting, St. Pete July 10-12 '07

➤ Issues of interest:

4. Field trials of selected Microbial Source Tracking methods underway. GOMA oversight panel being assembled.
5. GOMA interested in adopting database for monitoring systems information (not necessarily raw data). CERP Monitoring Locator is strong candidate.
