# Basic GOMA Action Plan structure:

## GOMA terminology

### Action Issue – Water Quality

**Action Item** – Improve government efficiency in water quality monitoring

**36-Month Outcome** - Implement a regional pilot effort to coordinate and standardize state and federal water quality data collection activities.

**Action** - Comprehensively survey local, state and federal agencies for types of water quality data being collected.

**Action Step** - NOAA will provide data about NERRS System-wide monitoring program including rationale for protocols and quality assurance
