

Table 1. Trends in Selected Water Quality Indicators at Surface Water Stations (Adjusted for River Flow).

This is a ten-column table. Column 1 lists the station, Column 2 lists the river, Column 3 lists the county, and Columns 4 through 10 list the water quality indicators.

Note: Each row gives the results at a single location on a river, and does not necessarily represent the conditions along the entire river or in the entire county.

"Up" means the indicator is increasing, "Down" means it is decreasing, and a zero (0) means there is no significant trend. Insufficient data (ISD) means there are not enough data to determine a trend.

TKN = Total Kjeldahl Nitrogen, TP = Total Phosphorus, TOC = Total Organic Carbon, and DO = Dissolved Oxygen

Station	River	County	Nitrate-Nitrite	TKN	TP	TOC	Chlorophyll a	Fecal Coliform	DO
