Hi Shannon,

The proposed activities are well under our thresholds in needing a full blown ERP. No permit would be needed for

After reviewing the existing General Permit, GEN-059-284628-1, it appears this permit is still active with FDEP as existing GP.

To avoid having to submit a new application, you can provide us with revised plans and any supporting documents. I hope this helps.

Respectfully,

Duke N. Le, Engineer II

Northwest Florida Water Management District

Dana,

Just following up on this. If you or someone else could give me a call to discuss that would be great.

Thank you,

Shannon Hufty, P.E.
