

1014.9 Intermediate handrails.

Stairways shall have intermediate *handrails* located in such a manner that all portions of the *stairway* minimum width or required capacity are within 30 inches (762 mm) of a handrail. On monumental *stairs*, *handrails* shall be located along the most direct path of egress travel.

(FBC 2017)

Large staircase at the base of the stairs for this project should be considered monumental and any handrails beyond those at the edges should be at the discretion of the park.
