This map was compiled from U.S. Geological Survey quadrangle maps, General Land Office plats, aerial photography flown in February 1955, road inventory surveys May-October 1956, and other map data.

This map was prepared on the Lambert conformal conic projection, North Zone, Florida system of plane coordinates.

In congested rural areas local roads are indicated by a single line only. For details refer to insets prepared for this county.

City populations are taken from the U.S. Census for 1960.

Portions of railroads are omitted in order to show topography.

GRID NORTH AT QUINCY IS APPROXIMATELY 0°00'48" WEST OF TRUE NORTH
MAGNETIC NORTH IS APPROXIMATELY 2°40' EAST OF TRUE NORTH IN 1956
ANNUAL MAGNETIC CHANGE IS APPROXIMATELY 4' WESTWARD
