Bureau of Waste Cleanup

JUN 08 2000

Hazardous Waste
Cleanup Section

Dear Ms. Barrett:

This is to follow up the various e-mails that were sent between our offices in the second week of April 2000.

Based on the time that will be needed to redesign this treatment and disposal system, the Central District Office acknowledges the withdrawal of the application.

A new permit application will be required prior to any resumption of remediation, which results in a surface water discharge. A disposal strategy, which does not result in a surface water discharge, would not require an Industrial Wastewater permit. It is understood that the system will remain closed until further notice.

If you have any questions, please contact Mr. Eugene Elliott at 407-893-3317.

Sincerely,

for Christianne C. Ferraro
