

Aqueous Film-Forming Foam (AFFF) Inventory Reporting Form

Effective July 1, 2026, the Department is accepting inventories of Aqueous Film-Forming Foam (AFFF), which is defined as any firefighting foam containing intentionally added perfluoroalkyl and polyfluoroalkyl substances, including perfluorooctanoic acid and perfluorooctane sulfonate, pursuant to Section 376.911(1)(b), Florida Statutes.

The Department encourages the use of the fillable form; however, use of this form is not required. An entity may use this form or in a similar format to submit their AFFF inventory information by emailing the Department at (AFFFInventory@FloridaDEP.gov). This inventory form should only be submitted if an entity stores AFFF at a Florida facility. If an entity stores AFFF at more than one facility, use a separate form for each facility.

Entity Information		Contact Information	
Reporting Entity Name		Submitter Name	
Address <i>(location of AFFF Inventory)</i>		Submitter Job Title	
Facility Type		Phone Number	
Hazardous Waste Generator ID <i>(if applicable)</i>		Email	
		Submission Date	

Inventory Information						
AFFF Product Name	Container Type and Capacity			Number of Containers	Quantity of Product	
	Type	Capacity	Gallons or lbs.		Liquid (gal)	Weight (lbs.)
Total Quantity						

Notes: Entities may have different brands of AFFF and different types of containers. If known, please list the product name information (brand) on each line and include the estimated quantity in the container(s) e.g., indicate 27.5 gallons for a 55-gallon drum that is half full. If the AFFF product name is unknown, indicate "Unknown". See below example. Use page 3 for additional Inventory (if needed).

Aqueous Film-Forming Foam (AFFF) Inventory Reporting Form

Inventory Example						
AFFF Product Name	Container Type and Capacity			Number of Containers	Quantity of Product	
	Type	Capacity	Gallons or lbs.		Liquid (gal)	Weight (lbs.)
