Should you file a Biennial Report this time?

WHO MUST FILE THE FEDERAL 2015 HAZARDOUS WASTE REPORT

You are required by Federal statute (mandatory reporting) to complete and file the 2015 Hazardous Waste Report (also known as the "Biennial Report") or your State's equivalent hazardous waste report if your site:

Met the definition (see box below) of a RCRA Large Quantity Generator (LQG) during 2015; or Treated, stored, or disposed of RCRA hazardous wastes on-site during 2015.

Some States require that you File the Report for other reasons (as a NON - Federally Required Report)

DEFINITION OF A RCRA LARGE QUANTITY GENERATOR WHO MUST REPORT FOR 2015

A site is a RCRA Large Quantity Generator (LQG) for 2015 if the site met any of the following criteria:

- a. The site generated, in any single calendar month, 1,000 kg (2,200 lbs.) or more of RCRA non-acute hazardous waste; or**
- b. The site generated, in any single calendar month, or accumulated at any time, more than 1 kg (2.2 lbs.) of RCRA acute hazardous waste; or**
- c. The site generated, in any single calendar month, or accumulated at any time, more than 100 kg (220 lbs.) of spill cleanup material contaminated with RCRA acute hazardous waste.**

Note: You will report your CURRENT Hazardous Waste Generator status as of the date of submitting your 2015 Hazardous Waste Report on the Site ID Form in Item 10.A.1 - Generator of Hazardous Waste.

Your current status may be different from the status during the report year

Sites That Should Not File the Hazardous Waste Report (as a Federally Required Report)

Do not file the 2015 Hazardous Waste Report (as a Federally Required Report) if, during 2015, your site was not a RCRA Large Quantity Generator (your site did not meet any of the LQG criteria) and your site did not treat, store, or dispose of RCRA hazardous wastes on-site in waste management units subject to a RCRA operating permit.

The screenshot shows a web-based form for EPA reporting. At the top, there are fields for 'EPA ID: FLD984263012' and 'Facility or Business Name: TEST'. Below these are tabs for 'Site Information', 'HW Activities', 'Universal Waste', 'Transporter Registration', 'Used Oil Registration' (which is highlighted in yellow), and 'Certification'. A 'Comments' section with a text area is present. A certification statement is followed by a table with columns: 'Signed (First, Last)', 'Title', 'Used Oil Cert', and 'Date'. The table contains one row with the values 'TEST TEST', 'TEST', '01/07/2016', and an empty date field. Below the table are buttons for 'Click here to Add a Certifier', 'Select a certifier above first then:', 'Edit', and 'Delete'. Further down are fields for 'Report completed by: TEST T TEST', 'Report Contact Phone: (555)555-5555', 'Report Contact E-Mail: test@gmail.com', 'Data Entered by: Erin G. Wilcox', 'Same as Above', and 'Date: 01/07/2016'. At the bottom are buttons for 'Save Changes', 'Undo Changes', 'Print This Form', 'Help', and a large 'EXIT' button. A red arrow originates from the text 'Click Exit' and points directly to the 'EXIT' button.

Click what applies to the Facility

Most waste that is generated is shipped off-site to a permitted Treater/Storer/Disposer (TSD) or Recycler using a RCRA Hazardous Waste Transporter (not treated first)

☐ Some of this waste was shipped off-site to be managed at a Treater/Storer/Disposer (TSD) or Recycler

Some waste that is generated is treated, recycled, or disposed of in an ON-SITE Treatment, Recycling, or Disposal system -- (sometimes some is shipped and some is treated)

☒ Some of his waste was managed AT THIS SITE in an on-site Treatment, Recycling, or Disposal system

When waste is treated, recycled or disposed of in an on-site Treatment, Recycling, or Disposal system, often there are RESIDUAL WASTES (filters, sludges, concentrated liquids, fuel, etc.) from the treatment system (which was reported on a separate form)

☐ This waste was a RESIDUAL from an on-site Treatment, Recycling, or Disposal system (Source Code = G25)

When waste is treated IMMEDIATELY on-site in a totally enclosed Treatment or Recycling system, the residuals ARE the waste (there is no separate form GM) source = G21,G23,G24

The screenshot shows the EPA Form WR interface. At the top, the EPA ID is FLD984263012, Page 00001, Year 2015, and the form is checked for EPA. The 'Federal Waste Codes' button is highlighted with a red arrow from the text 'Click Federal Waste Code button'. The 'State Waste Codes' button is also visible. The 'Source EPA ID' field is highlighted with a purple border. The 'Quantity Received' field is highlighted with a yellow border, showing 0.000000 Tons. The 'Units Of Measure' field is highlighted with a yellow border, showing 'INVALID UNIT OF MEASURE CODE'. The 'Density' field is highlighted with a yellow border, showing 0.00. The 'Waste Form' field is highlighted with a blue border, showing 'INVALID FORM CODE'. The 'Treatment System' field is highlighted with a blue border, showing 'INVALID CODE'. The 'COMMENTS' button is visible. The 'Facility Waste Receipts Summary' section at the bottom has buttons for Form, Treatment, Waste Code, ID/Form, and ID/System. The 'EXIT' button is at the bottom right. A vertical toolbar on the right side contains buttons for Search, Add, Save, Undo, Delete, Print, Help, and Move.
