Notes:

14 refers to the well numbering system. Well numbers may also be preceded by B, PP, W and WGL. Well locations reflect original not necessarily current locations. This map was created using FDEP databases, data obtained from the Florida Geological Survey (FGS) and scanned US Geological Survey 1:250,000 scale topographic maps. It was produced January, 2002 by the Florida Department of Environmental Protection, Division of Resource Management, FGS, GIS Sub-Section. This document was prepared for the presentation of the geologic (or hydrogeologic, etc.) information shown and is not intended to replace site-specific or use-specific investigations.
