Ft. Myers, FL 33902

REGISTER NOW!

The Florida Department of Environmental Protection is offering this FREE workshop to assist you and your company through the transition to the State's Programmatic General Permit (SPGP V) issued by the Army Corps of Engineers for certain in-water activities.

The training will include information on the following:

- Major changes in SPGP V
- Project specific criteria
- What to include in your application

Contact Megan Mills at
Megan.Mills@dep.state.fl.us or
239-344-5670 with any questions.

**Attendance at this training does not necessarily guarantee your project will be green, however, we will provide you with the tools to increase the likelihood that your project will qualify.*
