FROM: Tom Beason, General Counsel
RE: Significant Cases

Below is the Office of General Counsel's weekly status report on significant matters.

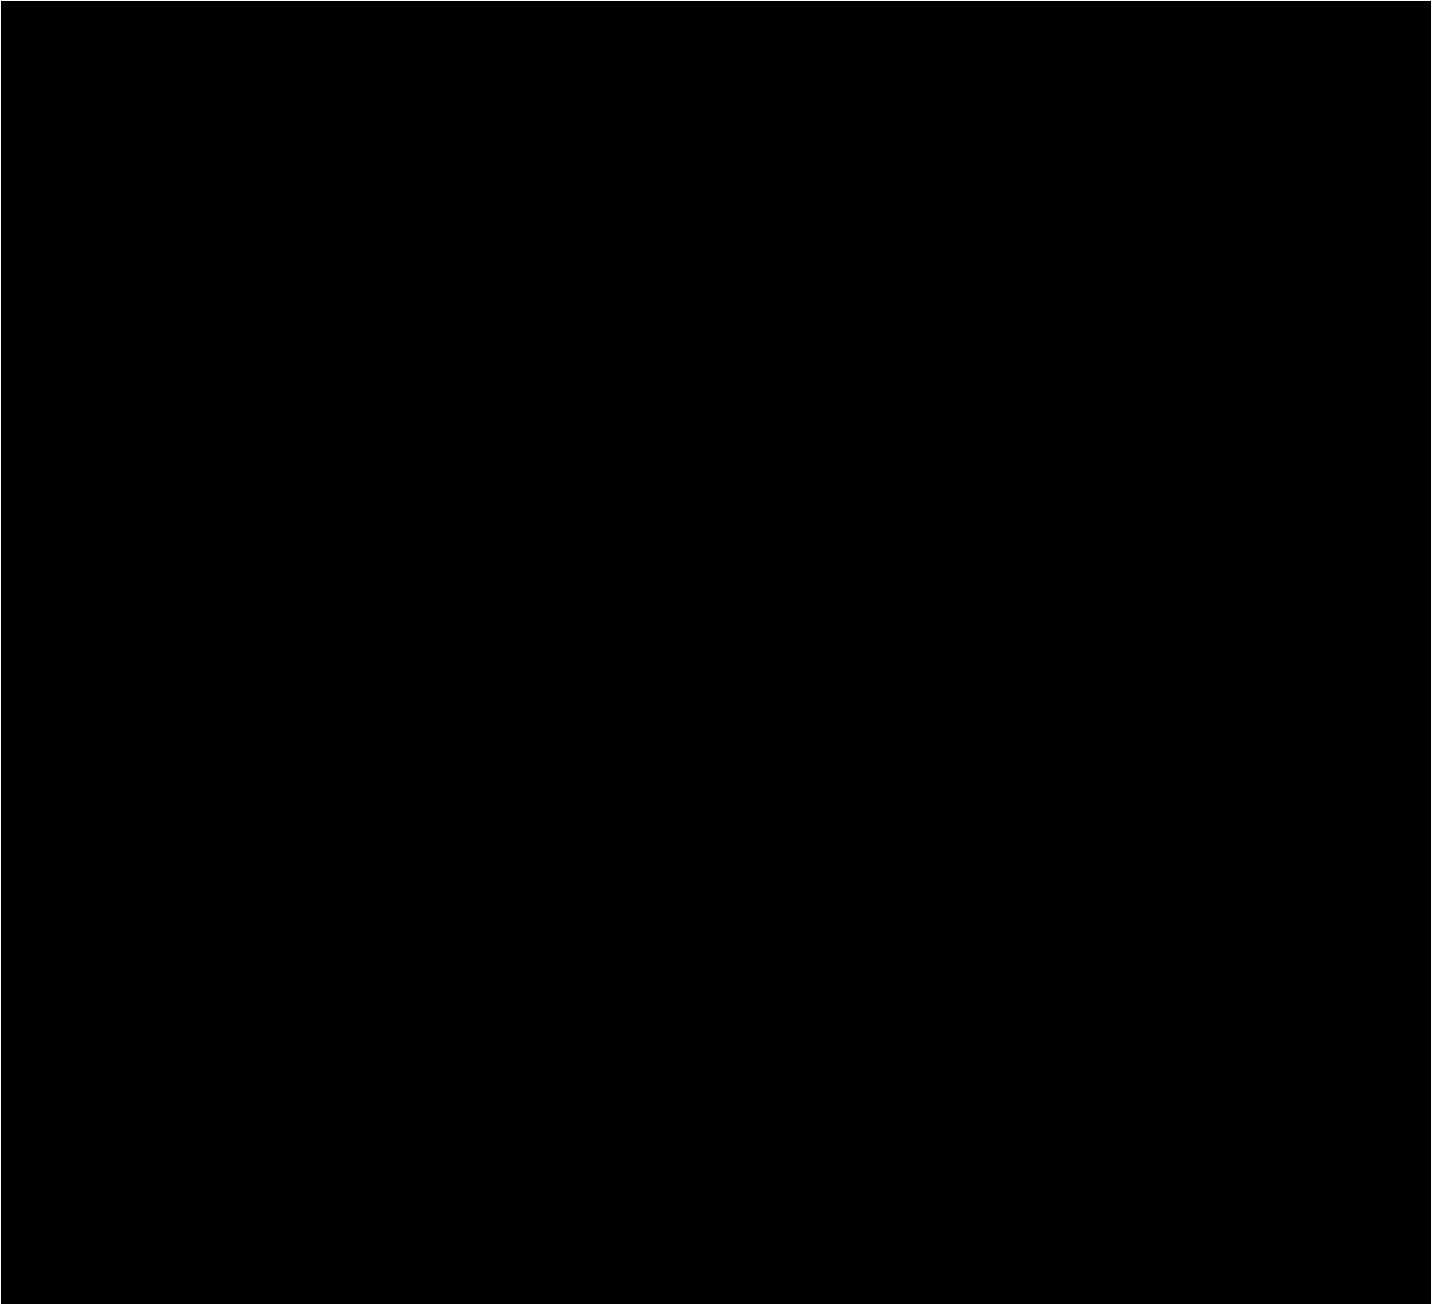

Water Section

- Highlands Ranch Mitigation Bank and Bureau of Submerged Lands and Environmental Resources: Department has determined that Highlands does not require a variance because pursuant to Rule 62-342.700(4)(a), F.A.C., no financial responsibility shall be required where the construction and implementation of the mitigation bank, or a phase thereof, is completed and successful prior to the withdrawal of any credits, which comports with the proposed credit release schedule. OGC drafted language to that effect for the draft permit, which staff will provide to Highlands for review. (Christine Francescani)
