Mark Heidecker, City of Tallahassee	Edgar Wade, Leon County
Wyatt Hendrick, Friends of Lake Munson Inc.	Richard Wieckowicz, Citizen
Maira Homann, DEP	

Presentation

Sam Hankinson gave a brief overview of the Wakulla BMAP, basin required reductions, entity required reductions and the upcoming BMAP schedule. He explained that the total maximum daily load (TMDL) is 0.35 milligrams per liter of nitrate. Based on recent water quality data, an additional 14% reduction is needed to meet the water quality target.

Poster Session

Posters were presented, along with the opportunity for attendees to review BMAP information and ask questions of DEP staff.

Written Comments

No written comments or questions were submitted at the meeting.
