

Water Laboratory Alliance WLA SECURITY SUMMIT

• 2010 West Coast

EPA United States
Environmental Protection
Agency

**June 16-17, 2010
San Francisco, CA**

The **U.S. Environmental Protection Agency (EPA)**, in collaboration with its partners in the Water Sector, is sponsoring the second Water Laboratory Alliance (WLA) Security Summit in June 2010. The Summit will actively engage a vast array of technical and leadership staff from the Water Sector, laboratory, and emergency response communities to learn about WLA program elements, practice the WLA Response Plan (WLA-RP) for incident response, and provide hands-on experience with EPA security-related tools and resources.

The goals of the WLA Security Summit are to:

- Highlight Water Security tools and benefits
- Describe the WLA, how it fits into other laboratory response networks, illustrate the role laboratories and others play in a response and exercise elements of the WLA-RP through an interactive table top exercise
- Provide opportunities to network across functions to enhance response during an incident

**The WLA Security Summit
will take place June 16-17, 2010
at the Grand Hyatt in San Francisco, CA**
