[Re EXTERNAL - Unfortunate mix up on COC for RQ-2021-08-23-12.msg](#)

---

It was decided not to report the Enterococcus, because the sample was held at room temperature. See attached email.

Morning Valerie! I spoke with the sampler on 08/26/2021 who said he contacted your lab to change the order for E.coli to Enterococci. The report you provided me has results for E.coli. Was the enterococci run and I should expect a separate report? Please let me know.

Thank you!  
Amber Eells
