The graph displays the distance from five different reference points (Ref. Pt. 0, 14, 15, 16, 17) to a common point (ID/Axis Location 0) over time. The y-axis represents the distance in feet, ranging from 0 to 800. The x-axis represents the calendar year, ranging from 1850 to 2025. The legend indicates that each tick mark on the y-axis represents 100 ft. The data shows that all five reference points converge to a distance of 0 ft by the year 2000.

The graph displays the distance from reference points in feet over time. The x-axis represents the calendar year from 1850 to 2025. The y-axis represents the distance in feet, with a scale where each tick mark is 100 feet. The data shows a significant increase in distance starting around 1925, peaking around 1975, and then fluctuating.
