

This line graph displays the distance from reference points (in feet) over time (in calendar years) for a specific reference point, identified as Ref. Pt. 0. The Y-axis represents the distance in feet, ranging from 0 to 800, with major tick marks every 400 feet. The X-axis represents the calendar year, ranging from 1850 to 2025, with major tick marks every 25 years. A single data series is plotted as a solid black line, showing a steady decrease in distance over time. The line starts at approximately 800 feet in 1900 and ends at approximately 100 feet in 1975. A note indicates that each tick mark on the Y-axis represents 100 feet.

Calendar Year	Distance from Reference Points (ft)
1900	800
1925	400
1950	0
1975	100
