RE: 2010 RESIDUALS ANNUAL SUMMARY – HOWARD F. CURREN AWTP
FACILITY ID#0020940

Dear Mr. Gildea:

Please find enclosed the 2010 Residuals Annual Summary Report, which describes land application activity performed by H & H during the 2010 calendar year. All Agricultural Use Sites utilized by the facility are represented in the summary report and detailed application data is provided for each. A data sheet is also included listing the land application sites, owners, addresses and loading data, and will be helpful in providing information for the EPA Part 503 reporting requirements for your facility. All generators of biosolids must report annual land application activity to the EPA. Contact your FDEP sub-district if you are unclear about federal reporting requirements.

Please review the summary package, making any changes or corrections you deem necessary, and complete the *Certification* portion on Part I – Facility Information, providing all required information. Our Certification as the *Land Applier* is enclosed in this package. Tampa Utilities, as Permittee, must submit the RAS report to the appropriate FDEP District so that it is received by February 19, 2011. Please contact me at (561) 274-4840 should you have questions regarding the enclosed materials or desire additional detail.

We are pleased to have provided residuals management services for the Howard F. Curren AWTP this past year, and look forward to providing the best biosolids management services available in the coming year.

Sincerely,

Martin E. Buerk
Vice President

Florida Department of Environmental Protection
