Re: Public Notices 83FL077
Dated August 11, 1983

Dear Sir:

We have reviewed the above-cited public notice which proposes reissuance of a National Pollutant Discharge Elimination System (NPDES) permit. The Fish and Wildlife Service would have no objection to the reissuance of the NPDES permit to the following applicant, provided that they include discharge limitations and other appropriate conditions that would insure the maintenance of the natural water quality in the area involved, and that, for the life of the permit, the discharges would have no adverse effects on fish and wildlife or their habitats.

Gulf Power Company, Scholz Electric Generating Plant,
Apalachicola River, Chattahoochee, Florida.
NPDES No. FL0002283.

Sincerely,

James M. Barkuloo
for Field Supervisor
