Supervisor of Environmental Services  
Gulf Power Company  
One energy Place  
Pensacola, Florida 32520

Re: Gulf Power Company-Scholz Electric Generating Station  
Request for Additional Information (DEP File # FL0002283-001-IW1S)

Dear Mr. Vick:

The Department has reviewed Gulf Power's application for permit renewal at the referenced facility received on October 10, 2003 and has determined that the following additional information is needed before the application can be further processed:

- Please provide an operation and maintenance performance report for the domestic wastewater treatment plant pursuant to rule 62-600.735 F.A.C.

Please provide two copies of the requested additional information to the Industrial Wastewater Section in Tallahassee and one copy to the Department's Northwest District office in Pensacola within 45 days following receipt of this letter.

This review addresses only completeness items for the renewal application submitted by the facility. All other items requested by the facility including groundwater monitoring requirements will be addressed in the permit renewal process.

If you have any questions concerning our comments, please contact me at (850) 245-8592.

Sincerely,

  
Allen P. Hubbard, P.E.  
Industrial Wastewater Section

cc: Bill Armstrong, P.E., DEP Pensacola
