Good morning Susan,

Please consider this email as an approval of your request to extend the due date of the fish return system plan for the Gulf Power Scholz facility to December 1, 2011. Please let me know if you have any other questions and hope you have a great afternoon

Sincerely,

Kevin Ledbetter
Engineering Specialist III
Power Plant NPDES Permitting
(850)245-8042

Subject: Gulf Power Scholz Plant

Kevin,
Gulf Power is currently drafting an aquatic organism return plan as required by the Scholz NPDES permit condition I.A.11. The plan was due one year after the effective date of the Scholz permit per condition VI.3. The consultant hired to draft the plan has undergone significant organizational changes including the addition of new personnel supporting our project. Gulf Power needs additional time to work with new personnel and requests that an extension for submittal of the plan be granted to December 1, 2011.
Please let me know if this deadline will be acceptable to the Department.
Thanks so much,
