Subject: RE: Wastewater Treatment Service Areas

Hello,

Thank you for your inquiry. We do not handle any data such as that you have requested. If that type of data can be found for the cities in our county, you need to contact the city managers for the three municipalities in Highlands County.

Arlene Tuck is the City Manager for Lake Placid.
Kathy Haley for Sebring
Avon Park has recently changed leadership so I am unsure of their new manager.
I have no contact information for them. You will need to contact directory assistance for these cities.

Other than possibly Sebring, I doubt that you will find the information you seek, but good luck anyway.

One other slight possibility might be the Highlands County Planning Department. They have a limited GIS based on our hand-drawn tax maps and might have some of the information you are looking for.
The contact person there is Don Hanna at 863-402-6500.

Thanks,

Robert J (Joe) Lowe, Jr.

Subject: Wastewater Treatment Service Areas

Hello

I am not sure who I need to contact, however, my name is Latrincy Whitehurst and I work with Florida Department of Environmental Protection out of Tallahassee, FL. I am in the process of creating a map for the state of showing all areas that are connected to county and/or city sewer. However I have to collect data from both the county and city level. If at all possible I need to get GIS shapefiles or CAD files of the city sewer coverage areas to include in this map. If you can help me with this information please either email me back or contact me at the phone number below. Otherwise could you direct me to someone who you think could help me?

Thanks
