Code of Ethics

of the

Florida Department of Environmental Protection
Central Laboratory

(Chemistry, Biology and Scientific Support Services Programs)

Employees of the Florida Department of Environmental Protection Central Laboratory are charged with:

- Providing accountability for the quality and integrity of the laboratory services they provide. This responsibility requires that employees accurately record pertinent laboratory data and functions to ensure that the data produced by the laboratory is of known, documented quality.
- Striving to maintain and improve their technical knowledge and professional competence. This responsibility requires that employees become familiar with the tools and information necessary for the performance of their assigned duties.
- Maintaining cooperative, professional working relationships with colleagues and laboratory clients.

My signature in the associated logbook attests to the fact that I have read, understood, and agree to adhere to the laboratory's Code of Ethics.
