Code of Ethics

Of

DEP Laboratory
Florida Department of Environmental Protection

Employees of the DEP Laboratory of the Florida Department of Environmental Protection are charged with:

- Providing accountability for the quality and integrity of the laboratory services they provide. This responsibility requires that employees properly document pertinent laboratory functions so that data produced by them are of known, documented quality.

- Striving to maintain and improve their technical knowledge and professional competence. This responsibility requires that employees become familiar with the tools and information necessary for the performance of their assigned duties.

- Maintaining cooperative, professional working relationships with colleagues and laboratory clients.

My signature in the associated logbook attests to the fact that I have read, understand and agree to adhere to the laboratory's Code of Ethics.

The OFFICIAL COPY is the on-line version. All other copies are considered unofficial and uncontrolled.
