Tallahassee, FL 32399

RE: FL Energy Secure Line

Dear Ms. Seiler:

Per Ch. 62-807.480 of the Natural Gas Transmission Pipeline Siting Act, Putnam County is filing its agency report regarding the proposed pipeline:

- (a) Putnam County has not identified any requirements that would necessitate any form of relief from the County in order to certify the proposed corridor.
- (b) Putnam County recommends approval of the application by Florida Power and Light Company for the proposed corridor.
- (c) Putnam County has no proposed conditions of certification for the proposed FL Energy Secure Line corridor.

Please direct any questions regarding this agency report to me. I will be happy to assist you.

Sincerely,

A handwritten signature in black ink, appearing to read "Brian S. Hammons", with a long horizontal flourish extending to the right.

Brian S. Hammons, AICP, Director
Putnam County Planning and Development Services Dept.
