Dear Mr. Yarbrough:

Certification PA 90-08, Hardee Power Station
Arcadia-Lee Transmission Line

The Bureau of Wetland Resource Management staff has reviewed the proposed right-of-way (ROW) for the transmission line from Arcadia to Lee Substation. We have the following questions and comments.

1. The wetland boundaries of the river shown on sheets 45 and 46 are not marked. Please provide a copy of these two aerials photographs with the wetland boundary indicated.
2. On Sheet 46, there appears to be a wetland system that runs east and west through the southern portion of the aerial photograph. Please clarify what this system is.
3. On Sheet 54, please relocate the second structure from the south to the upland spit adjacent to the existing road.
4. On Sheet 55, please relocate PI-52 to the adjacent upland.
5. On Sheet 57, please adjust the spans of the southern three structures to avoid the wetland.
6. On sheet 60, please move the second structure from the north out the wetland.
7. On Sheet 61, please move the north structure out of the wetland.
8. On Sheet 62, please move the second structure from the north to the adjacent upland.
9. On Sheet 63, please adjust the spans of the northern four structures to get structures 2 and 4 from the north out of the wetland.

10. On Sheet 65, please relocate the first structure east of PI-68 out of the wetland.

11. On Sheet 69, please adjust the spans between PI 75A-1 and PI-75A to move the structure between them out of the wetland.

If there are any questions, I can be contacted at (904)488-0130.

Sincerely,

A handwritten signature in cursive script that reads "Trudie D. Bell".
