RE: Progress Energy Florida
Levy Nuclear Plant Units 1 and 2
Site Certification Application; PA 08-51

Dear Mr. Halpin:

In a cover letter dated October 30, 2008, Progress Energy Florida (PEF) provided instructions for replacing a set of substitute pages for Volume 2 of PEF's Site Certification Application for the Levy County Nuclear Plant Units 1 and 2 amending the SCA to revise or withdraw Sections 9-A1.3.1.7, 9-A1.3.6.2.4, 9-A3.3.1.7, and 9-A3.3.6.2.4 of the SCA, which sections address the proposed Citrus and Central Florida South substations. The instructions in that letter inadvertently requested holders of that document to remove pages 9-A1-9 and 9-A1-10, as well as 9-A3-39 and 9-A3-40. These pages, in fact, have not been revised and the "Rev. 0" version of these pages should remain in place as part of the document. If the "Rev. 0" version of these pages has been removed from the document, please replace them with the pages enclosed with this letter to make the document whole again.

In addition to the replacement pages noted above, please find enclosed a SCA Revision Tracking Sheet. This page should be added to the front of the SCA and will be updated to reflect any additional revisions, modifications and/or supplements to this document in the future.

I apologize for any confusion this may have caused. Should you have any questions concerning this matter, please contact me at John.Hunter@PGNmail.com or at 727-820-5764.

Sincerely,

A handwritten signature in blue ink, appearing to read 'J. Hunter', written over a horizontal line.

Jamie Hunter
