Levy Nuclear Plant Units 1 and 2
Site Certification Application Revision Tracking Sheet
November 6, 2008

Date	Pages Effected	Reason For Change
October 30, 2008	9-A1-9 thru 9-A1-12, 9-A1-23 thru 9-A1-26, 9-A3-11 thru 9-A3-12, 9-A3-37 thru 9-A3-40 Pages changed to "Rev. 1"	Pursuant to PEF's Notice of Amendment of the Site Certification Application (SCA) filed October 6, 2008 in the Division of Administrative Hearings Docket No. 08-2727EPP, PEF is amending the SCA to revise or withdraw Sections 9-A1.3.1.7, 9-A1.3.6.2.4, 9-A3.3.1.7, and 9-A3.3.6.2.4 of the SCA, which sections address the proposed Citrus and Central Florida South substations. PEF will not be seeking certification for the proposed Citrus or Central Florida South substations in the above-mentioned proceeding. Any required approvals for these substations will be obtained separately.
	Added pages 10.3-5 and following 23 pages directly behind page 10.3-5	In addition, supplemental information was added to Volume 5 of the SCA regarding Levy County zoning descriptions, as described in the letter to FDEP Siting Office dated October 24, 2008.
November 6, 2008	9-A1-9 thru 9-A1-10, 9-A3-39 thru 9-A3-40 "Rev. 0" pages reinserted	In a cover letter dated October 30, 2008, Progress Energy Florida (PEF) provided instructions for replacing a set of substitute pages for Volume 2 of PEF's Site Certification Application. The instructions in that letter inadvertently requested holders of that document to remove pages 9-A1-9 and 9-A1-10, as well as 9-A3-39 and 9-A3-40. These pages, in fact, have not been revised and the "Rev. 0" version of these pages should remain in place as part of the document.
