Re: FPL Property Tax For St. Lucie County

Dear Dick,

As you are aware, we have been advised by the St. Lucie County Property Appraisers office that they are challenging our request for classification of pollution control property at the nuclear plant for tax year 1996. This same issue arose last year requiring the Department of Environmental Protection to review the systems at the plant and provide a recommendation to the county. The systems currently at issue, represent only those which were approved by Hamilton Oven last year, and were requested again this year by FPL.

We have provided Douglas Putnam, Property appraiser for St Lucie County, with a copy of several documents which were requested by him in accordance with 193.621 of the Florida Statutes. He has advised us that it is his intention to have a meeting with the DEP to dispute some portion of our request. He has secured the help of a consultant to support him in this matter. After their review of the material, they will evidently be contacting Mr. Oven to arrange a meeting. I have repeatedly offered to meet with their consultant, FPL engineers, and Mr. Putnam in an effort to bring this issue to a resolution as soon as possible.

Enclosed is a copy of the "basis document " which references each of the major pollution control systems, their function, and corresponding FERC account number. This document, along with several hundred drawings of the plant systems, was given to Mr. Putnam today. Additionally, in response to his request for a copy of revision 12 of the Final Safety Analysis Report (FSAR) for unit two, we have informed him that this report is available at the Indian River Community College library and can be reviewed there.

Thank you for your assistance in this matter.

Sincerely,

Tom Nicholson

Re: Assessment of Pollution Control Equipment - C.D.R. Services

Dear Mrs. Denton:

I have reviewed the May 9, 1996, submission from your office concerning CDR Systems Corp's request for relief from ad valorem taxes for pollution control equipment. The material provided generally satisfies the requirements of Chapter 62-8, Florida Administrative Code. The Department has determined that the listed equipment would be for the purpose of air pollution control which would be eligible for assessment as pollution control equipment pursuant to ss. 193.621, Florida Statutes.

If you have any questions, I may be contacted at (904) 487-0472 or Suncom 277-0472.

Sincerely,

Hamilton S. Oven

Dear Mr. Oven:

Enclosed please find the Return of Pollution Control Devices
for Ad Valorem Tax Purposes for:

1. C.D.R. Systems

Would you review this information and advise me what meets
the criteria of pollution control devices and should be
assessed as such under Chapter 193.261, Florida Statutes.
If you need any further information regarding this, let me
know.

Sincerely,

Marsha Denton

Dear Mr. Oven:

In re: Pollution Control Devices
Florida Power and Light Co.

Enclosed is a list equipment that Florida Power and Light Company would like to be assessed as pollution control devices.

Pursuant to Chapter 193.621 (6), the St. Lucie County Property Appraiser's Office request the Department of Environmental Protection review this list and advise us if any of the items meet the criteria to be assessed as pollution control devices. Since the dollar amount reported is considerable and the fact that our preliminary roll has to be completed as of June 1, 1996, we would appreciate a response to our request as soon as possible.

Should you need any additional information, please do not hesitate to contact me.
Thank you for your cooperation in this matter.

With kindest regards,

DOUGLAS S. PUTNAM, CFA
Property Appraiser

In re: Pollution Control Devices
Florida Power and Light Company

Dear Mr. Oven:

Last year, I requested the Department of Environmental Protection to review a list of items that Florida Power and Light Company was requesting to be considered as pollution control devices.

Based on the information supplied by Florida Power and Light Company, the Department then provided our office with a list of items that in your opinion should be assessed as pollution control devices pursuant to Chapter 193.621 (4), Florida Statutes.

I would like to have an opportunity to meet with you and to find out how these items were determined to be pollution control devices. If we could meet sometime in the next two weeks, I would appreciate it.

With kindest regards,

Douglas S. Putnam
