Re: Aramark Uniform Services, Inc. - Certification of Pollution Control Equipment

Dear Mr. Miles:

The Department of Environmental Protection has reviewed material attached to your recent submittal. The Department has determined that the listed equipment for the Aramark facility is potentially eligible to be considered as pollution control equipment pursuant to s. 193.621, F.S. You may accept the preceding statement as an approval if you wish. If, however, you wish a more positive statement from this office. Have Aramark submit a statement from an engineer, registered in the State of Florida, certifying that the primary purpose of the equipment listed is for the purpose of pollution control as required by Florida Administrative Code Chapter 62-8. A copy of that chapter is attached for your information.

If you have any questions concerning this matter, I can be reached on (904) 487-0472 or SUNCOM 277-0472.

Sincerely,

Hamilton S. Oven, P.E.
