Re: Water Recovery, Inc.
Pollution Control Devices

Dear Ms. Rose:

I have reviewed the material attached to your email of July 12, 2007, regarding pollution control devices at Water Recovery, Inc. In my opinion, the tank, mechanical and lab equipment listed for Water Recovery, Inc. is "primarily for the purpose of pollution control" and is eligible for assessment as a pollution control device pursuant to §193.621, Florida Statutes.

However, certification from the reviewing Professional Engineer is not included. In accordance with DEP Rule chapter 62-8, Florida Administrative Code, a current evaluation of equipment by a registered Professional Engineer in the State of Florida must be submitted. My advice is to obtain the Florida registration number for the engineer responsible for the evaluation, and upon such proof of registration, approve accordingly.

If there are any questions on this determination, please contact me at (850) 245-8002.

Sincerely,

Michael P. Halpin, P.E.
Administrator, Siting Office
