CORRECTED ORDER MODIFYING CONDITIONS OF CERTIFICATION

Dear Mr. Casey:

The Siting Board issued the Site Certifications for the Dade County Resource Recovery Facility on January 9, 1978. This certification authorized the construction and operation of a nominal 3000 tons per day refuse fired power plant located in Dade County, Florida. The Department of Environmental Protection has subsequently modified the Conditions of Certification on four different occasions by final orders.

On or before December 23, 2005, all parties to the certification proceeding were provided with notice by certified mail of the Department's intent to modify the Conditions of Certification for this facility, along with a copy of the proposed Order Modifying Conditions of Certification. Additionally, on or before December 28, 2005, notice of the Department's intent to modify the Conditions of Certification for this facility was published on the Department's website. Those notices specified that pursuant to Section 403.516, F.S., and Rule 62-17.211, F.A.C., all parties to the certification proceeding have 45 days from the issuance of the notice by mail to such party's last address of record in which file a written objection to the modification; that failure of any of the parties to file a response will constitute a waiver of objection to the modification; and that any person who is not already a party to the certification proceeding and whose substantial interests will be affected by the

requested modification has 30 days from the date of publication of the public notice in the Florida Administrative Weekly to object in writing.

No objections to the modification have been received by the Department. The Conditions of Certification for the Dade County Resource Recovery facility are hereby modified as follows:

II. AIR

The construction and operation of the Resource Recovery Facility shall be in accordance with all applicable provisions of Chapters 62-204, 62-210, 62-212, 62-213, 62-296, 62-297, 62-701, and 62-702, F.A.C., Florida Administrative Code, and with Permit Number PSD-FL-006, and with Permit Number 0250348-005-AV, as may be subsequently modified.

Written objections must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, MS 35, Tallahassee, Florida 32399-3000. If the Department does not receive any written objections, then an Order Modifying the Conditions of Certification shall be issued by the Department. If written objections are timely filed which address only a portion of the modification, then pursuant to Rule 62-17.211(1)(b)5., F.A.C., the Department shall issue an Order approving that portion of the modification to which no objections were filed, unless that portion of the modification is substantially related to or necessary to implement the portion to which written objections are filed. If written objections are raised, then pursuant to Section 403.516(1)(c), F.S., the applicant may file a petition for modification with the Department and the Division of Administrative Hearings seeking approval for those portions of the modification to which written objections were timely filed.

Mediation is not available in this proceeding.

Any questions regarding this Final Order to Modify Conditions of Certification should be directed to Hamilton S. Oven at (850) 245-8002. Questions regarding legal issues should be referred to the Department's Office of General Counsel at (850) 245-2242. Such contact with any of the above does not constitute an objection to the modification.

INTENT TO MODIFY CONDITIONS OF CERTIFICATION

Dear Mr. Casey:

The Siting Board issued the Site Certifications for the Dade County Resource Recovery Facility on January 9, 1978. This certification authorized the construction and operation of a nominal 77 tons per day refuse fired power plant located in Dade County, Florida. The Department of Environmental Protection has subsequently modified the Conditions of Certification on four different occasions by final orders.

On December 7, 2004, the DEP issued a renewal of Air Operation Permit No.0250348-005-AV. Pursuant to §§ 403.516(1), F.S. and Rule 62-17.211(1), Florida Administrative Code (F.A.C.) the Department proposes to modify the Conditions of Certification to conform to the renewed Permit.

The Florida Department of Environmental Protection ("Department") gives notice of its intent to modify the Conditions of Certification for the Dade County Facility. The Department has prepared a proposed Order Modifying the Conditions of Certification. That proposed Order is attached.

Pursuant to Section 403.516, Florida Statutes ("F.S."), and Rule 62-17.211, Florida Administrative Code ("F.A.C."), all parties to the certification proceeding have 45 days from the issuance of this notice by mail to such party's last address of record in which file a written objection to the modification. A public notice will also be published in the Florida Administrative Weekly ("FAW") and on the Department's internet home page at

<http://www.dep.state.fl.us/> under the link or button titled "Official Notices" regarding this Intent to Modify the Conditions of Certification. Any person who is not already a party to the certification proceeding and whose substantial interests will be affected by the requested modification has 30 days from the date of publication of the public notice in the FAW to object in writing. Failure to act within the time frame constitutes a waiver of the right to become a party.

Written objections must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, MS 35, Tallahassee, Florida 32399-3000. If the Department does not receive any written objections, then an Order Modifying the Conditions of Certification shall be issued by the Department. If written objections are timely filed which address only a portion of the modification, then pursuant to Rule 62-17.211(1)(b)5., F.A.C., the Department shall issue an Order approving that portion of the modification to which no objections were filed, unless that portion of the modification is substantially related to or necessary to implement the portion to which written objections are filed. If written objections are raised, then pursuant to Section 403.516(1)(c), F.S., the applicant may file a petition for modification with the Department and the Division of Administrative Hearings seeking approval for those portions of the modification to which written objections were timely filed.

Mediation is not available in this proceeding.

Any questions regarding this Intent to Modify Conditions of Certification should be directed to Hamilton S. Oven at (850) 245-8002. Questions regarding legal issues should be referred to the Department's Office of General Counsel at (850) 245-2242. Such contact with any of the above does not constitute an objection to the modification.
