ORDER MODIFYING CONDITIONS OF CERTIFICATION

Dear Ms. Curtis:

The Florida Pollution Control Board issued the Site Certification for Arvah B. Hopkins Generating Station Unit 2 on May 20, 1975. This certification authorized the construction and operation of a 238 megawatt (MW) steam electric power plant and ancillary facilities.

On March 15, 2005, the Department issued DEP Permit 0730003-007-AV for the Arvah B. Hopkins Generating Station. Pursuant to Rule 62-17.211(4), the Department is required to modify the Conditions of Certification for this facility to conform them to the Title V Permit.

On or before September 2, 2005, all parties to the certification proceeding were provided with notice by certified mail of the Department's intent to modify the Conditions of Certification for Modification M for this facility, along with a copy of the proposed Order Modifying Conditions of Certification. On September 2, 2005, a notice of the Department's intent to modify the Conditions of Certification for this facility was published on the Department's website and on the Department's internet home page at <http://www.dep.state.fl.us/> under the link or button titled "Official Notices" regarding this Intent to Modify the Conditions of Certification. Those notices specified that pursuant to Section 403.516, F.S., and Rule 62-17.211, F.A.C., all parties to the certification proceeding have 45 days from the issuance of the notice by mail to such party's last address of record in which file a written objection to the modification; that failure of any of the parties to file a

response will constitute a waiver of objection to the modification; and that any person who is not already a party to the certification proceeding and whose substantial interests will be affected by the requested modification has 30 days from the date of publication of the public notice to object in writing.

No objections to the modification have been received by the Department. The Conditions of Certification for the Arvah B. Hopkins Generating Station Unit 2 are hereby modified as follows:
