| A.I.D                   | Within 60 days after completion of construction of the electrical power plant as defined by 403.503(14), F.S., but excluding off-site linear and non-linear associated facilities, the Licensee shall provide to the Department in .pdf format: a survey map signed by a professional land surveyor, or acceptable equivalent documentation such as an official legal description, delineating the boundaries of the site as defined by Section 403.503(28), F.S., and an aerial photograph delineating the boundaries of the site. The survey map and aerial photograph shall be identified as the Site Delineation and attached hereto as part of Attachment A (Maps). The Licensee shall notify the Department of any change to the site boundary depicted in the Site Delineation in Attachment A (Maps). The notification shall be accompanied by an updated land survey map (or legal description) and aerial photograph delineating the new boundaries of the site for review by the Department. Absent the above description/delineation of the site, the Department will consider the perimeter fence line of the property on which the electrical power plant's generating facility and on-site support facilities are located to be the boundaries of the site. | Submit 60 days after completion of construction.<br>Notify the Dept. of any changes to the site boundary | 4/1/2017           | DEP    |
| A.I.E.                  | If both Certified and Uncertified facilities lie within the boundaries of the site, the Licensee shall also comply with the requirements of this paragraph. Within 60 days after completion of construction of the plant and on-site associated facilities, but excluding off-site linear and non-linear associated facilities, the Licensee shall provide to the Department in .pdf format: an acceptable documentation delineating the boundaries of the certified areas within the site such as an aerial photograph delineating these areas. The boundaries of the certified areas within the site shall include both the certified electrical power plant's generating facilities as defined in Section 403.503(28), F.S. and its on-site certified associated facilities (including on-site linear facilities) as defined by Section 403.503(7), F.S. The document shall be known as the Delineation of the Certified Area and attached hereto as part of Attachment A (Maps).                                                                                                                                                                                                                                                                                       | Submit 60 days after completion of construction.                                                         | 4/1/2017           | DEP    |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                      |     |     |

| A.I.VII.B. | The Licensee shall promptly notify the SCO in writing (email acceptable) of any previously submitted information concerning the certified facility that is later discovered to be inaccurate.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Submit when noncompliant                                      | N/A | DEP |
| A.VII.C    | Within 60 days after certification of an associated linear facility the Licensee shall file a notice of the certified route with the Department and the clerk of the circuit court for each county through which the corridor will pass. The notice shall consist of maps or aerial photographs in the scale of 1:24,000 which clearly show the location of the certified route and shall state that the certification of the corridor will result in the acquisition of rights-of-way within the corridor. The Licensee shall certify to the Department and clerk that all lands required for the transmission line rights-of-way within the corridor have been acquired within such county.                                                                                                                                                                                                                                                                                                                                                                                           | 60 days after certification of any associated linear facility | N/A | DEP |
| A.VIII.    | If the Licensee is temporarily unable to comply with any of the conditions of the License due to breakdown of equipment or destruction by hazard of fire, wind or following an emergency as defined by Sections 252.34(3), (6), (7) or (9), F.S., the Licensee shall immediately notify the Department. Notification shall include pertinent information as to the cause of the problem, and what steps are being taken to correct the problem and to prevent its recurrence, and where applicable, the owner's intent toward reconstruction of destroyed facilities. Such notification does not release the Licensee from any liability for failure to comply with Department rules. Any exceedances and/or violations recorded during emergency conditions shall be reported as such, but the Department acknowledges that it intends to use its enforcement discretion during this timeframe. This acknowledgement by the Department does not constitute a waiver or variance from any requirements of any federal permit. Relief from any federal agency must be separately sought. | Submit when noncompliant                                      | N/A | DEP |

|         |                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                   |     |                                   |

| A.XXI.     | Within 90 days after certification, and within 90 days after any subsequent modification or certification, the Licensee shall provide the SCO a complete summary of those post-certification submittals that are identified in these Conditions when due-dates for the information required of the Licensee have been identified. A summary shall be provided as a separate document for each transmission line, if any. Such submittals shall include, but are not limited to, monitoring reports, management plans, wildlife surveys, etc. The summary shall be provided to the SCO, in a sortable spreadsheet, electronically, in the format shown below or equivalent. For subsequent modifications and certifications, a Post-Certification Submittal Requirements Summary shall be required for only those resulting in new or altered post-certification requirements. | Submit within 90 days after certification                                 | submitted 1/14/16 | DEP |
| A.XXII.    | If, subsequent to certification, the Licensee proposes any material change to the SCA and revisions or amendments thereto, as certified, the Licensee shall submit a written request for amendment and a description of the proposed change to the SCA to the Department. Within 30 days after the receipt of a complete request for an amendment, the Department shall determine whether the proposed change to the application requires a modification to the Conditions.                                                                                                                                                                                                                                                                                                                                                                                                   | Submit written request when an amendment to the SCA is necessary          | N/A               | DEP |
| A.XXIII.D. | Any anticipated facility expansions, production increases, or process modifications which may result in new, different or increased discharge or emission of pollutants, change in fuel, or expansion in generating capacity must be reported by submission of an appropriate request for an amendment, modification, or certification.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Submit when a change in emissions, pollutants, fuels, etc. is anticipated | N/A               | DEP |

|                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                         |                             |     |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------|-----|
| A.XXIII.E.      | Any anticipated facility change that results in a change to the Site Delineation or the Delineation of the Certified Area, attached hereto as part of Attachment A (Maps), must be accompanied by a map or aerial photo showing the proposed new boundaries of the site and/or certified area. Within 120 days after completion of construction of the approved facility change, the Licensee shall provide the information required by Section A. General Conditions, Condition I. Scope, paragraphs D, E, F, or G, as appropriate. | Submit when a change in delineation of the certified area is necessary and submit required information within 120 days after completion of construction | N/A                         | DEP |
| A.XXVIII.A.1.a. | Prior to the commencement of construction of new facilities and/or associated facilities the Licensee shall provide to the DEP SED District’s Environmental Resource Permitting Section(s) for review, all information necessary for a complete Joint Application for Environmental Resource Permit (ERP), DEP Form 62-330.060, F.A.C.                                                                                                                                                                                               | Submit prior to commencement of construction                                                                                                            | Submitted during SCA review | DEP |
| A.XXVIII.A.1.b. | Concurrent with submittal of the DEP form required in Subparagraph A.1.a. above, the Licensee shall submit, as applicable, a survey of wetland and surface water areas as delineated in accordance with Chapter 62-340, F.A.C., and verified by appropriate agency staff for Department approval. Available DEP-approved wetland and surface water delineations within the boundaries of a certified site or a portion thereof may be used and reproduced for this delineation submittal and verification.                           | Submit prior to commencement of construction                                                                                                            | Submitted during SCA review | DEP |

|                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                    |                   |     |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|-------------------|-----|
| A.XXVIII.B.5.  | At least 48 hours prior to the commencement of construction of any new SWMS for any part of a Certified Facility authorized by this certification, the Licensee shall submit to the Department a written notification of commencement using an “Environmental Resource Permit Construction Commencement Notice” (DEP Form 62-330.350(1), F.A.C.), indicating the actual start date and the expected completion date.                                                                                                                                                                                                                                                                                            | Submit 48 hours prior to commencement of construction of new SWMS                  | Submitted 8/28/15 | DEP |
| A.XXVIII.B.7.  | Within 30 days, or such other date as agreed to by DEP and the Licensee, after completion of construction of any new portions of the SWMS, the Licensee shall submit to the SED District’s ERP Section, and copy the SCO, a written statement of completion and certification by a registered professional engineer (P.E.), or other appropriate registered professional, as authorized by law, utilizing the required “As-Built Certification and Request for Conversion to Operation Phase” (DEP Form 62-330.310(1), F.A.C.). Additionally, if deviations from the approved drawings are discovered, the As-Built Certification must be accompanied by a copy of the approved drawings with deviations noted. | Submit within 30 days after completion of construction of new portions of the SWMS | 3/1/2017          | DEP |
| A.XXVIII.B.10. | The SED District ERP Section must be notified in advance of any proposed construction dewatering. If the dewatering activity is likely to result in offsite discharge or sediment transport into wetlands or surface waters, a written dewatering plan must be submitted to and approved by the Department prior to the dewatering event. Additional authorizations may be required for certain dewatering activities.                                                                                                                                                                                                                                                                                          | Notify before dewatering                                                           | N/A               | DEP |

|              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                       |     |           |
|--------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------|-----|-----------|
| A.XXXII.B.1. | The Licensee shall report to the appropriate district office any noncompliance with industrial wastewater requirements which may endanger health or the environment. Any information shall be provided orally within 24 hours from the time the Licensee becomes aware of the circumstances. A written submission shall also be provided within five days of the time the Licensee becomes aware of the circumstances.                                                                                                                          | Report withing 24 hours of noncompliance              | N/A | DEP       |
| A.XXXII.B.2. | For unauthorized releases or spills of treated or untreated wastewater reported that are in excess of 1,000 gallons per incident, or where information indicates that public health or the environment will be endangered, oral reports shall be provided to the Department by calling the STATE WARNING POINT NUMBER (800) 320-0519, as soon as practical, but no later than 24 hours from the time the Licensee becomes aware of the discharge.                                                                                               | Report withing 24 hours of release                    | N/A | DEP       |
| B.II.A.1.e.  | Water Quality Monitoring. If water quality monitoring data is required by this certification for any water discharged from the project site or into surface waters of the state, it shall be submitted to SFWMD and the DEP. Parameters to be monitored may include those listed in Chapter 62-302, Florida Administrative Code. The Licensee shall provide such data to SFWMD as volumes of water discharged, including total volume discharged during periods of sampling and total discharges from the property or into waters of the state. | Submit when water quality monitoring data is required | N/A | DEP/SFWMD |

|                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                               |          |       |
|-----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|----------|-------|
| B.II.B.1.a.(4). | Within five years after the commencement of plant operation, or by December 31, 1997, whichever occurs first, and every ten years thereafter unless extended by mutual agreement between the Licensee and SFWMD, the Licensee shall submit to the SFWMD a report on the Project's consumptive water use which contains the information required by Chapter 40E-2, Florida Administrative Code, as in effect at that time.                                                                                                                   | Submit every 10 years                                                                         | 1/2/2019 | SFWMD |
| B.II.B.2.a.(1). | At least ninety (90) days prior to the commencement of construction of any portion of the repowering project, the Licensee shall submit to SFWMD staff, for a completeness and sufficiency re view, any pertinent additional information required under the SFWMD's site specific standards and conditions of certification for that portion proposed for construction. If SFWMD staff does not issue a written request for additional information within thirty (30) days, the information will be presumed to be complete and sufficient. | Submit pertinent additional information ninety days prior to the commencement of construction | N/A      | SFWMD |
| B.II.2.b.(1).   | Prior to the commencement of construction of those portions of the repowering project involving dewatering, a detailed plan for the proposed dewatering operations must be reviewed by the SFWMD for a determination of compliance with Chapter 40E, Florida Administrative Code.                                                                                                                                                                                                                                                           | Prior to construction in a dewatering area                                                    | N/A      | SFWMD |

|               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                           |     |       |
|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------|-----|-------|
| B.II.2.b.(2). | Surface water withdrawal quantities, separated by source, as authorized by this certification shall be submitted to the SFWMD on a monthly basis beginning with the month following issuance of this certification                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Submit monthly for surface water withdrawal quantities                    | N/A | SFWMD |
| B.II.2.c.(1). | <p>The Licensee shall undertake any activities associated with the repowering project, the approvals of which are granted by this certification, which use, connect to or cross the properties or works of SFWMD in accordance with SFWMD Right-of-Way Permit No. 9234, issued September 13, 1990. At least 30 days prior to commencement of construction of any authorized works or activities of the repowering project on the SFWMD's right-of-way, the Licensee shall provide the following information for review by the SFWMD for a determination of compliance with Chapter 40E-6, Florida Administrative Code:</p> <p>i. Proposed method of backfilling of the existing culvert connection to the South New River Canal;</p> <p>ii. Detailed construction drawings and cross-section which demonstrate that the backfilled areas will be returned to the same bank slope and berm line and grade as the adjacent bank and berm.</p> | Submit 30 days before commencement of construction on SWFMD right of ways | N/A | SFWMD |
| B.II.2.c.(3)  | If, in the future, the Licensee proposes modifications and/or additions to any existing facilities associated with the repowering project that are located within the SFWMD's rights-of-way that were not anticipated in the Site Certification Application submitted, complete drawings showing the proposed and/or modified facility(ies) shall be submitted for review by the SFWMD for a determination of compliance with Chapter 40E-6, Florida Administrative Code, prior to the commencement of construction of any facilities which will cross over, on, under, or otherwise use the SFWMD's right-of-way.                                                                                                                                                                                                                                                                                                                          | Submit before changes to facilities on SFWMD's rights of way occur        | N/A | SFWMD |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                         |     |                                                                                   |
|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------|-----|-----------------------------------------------------------------------------------|
| B.III.B.   | Where any suitable habitat and evidence is found of the presence of listed species within the certified area, the Licensee will report those locations to, and confer with, the appropriate regulatory agencies for possible additional pre-clearing surveys and to identify potential mitigation, or avoidance recommendations. If pre-clearing surveys are required, they shall be timed to be reasonably compatible with the construction schedule, considering the in-service date specified in the Public Service Commission’s need determination. The Licensee will not construct in areas where evidence of listed species was identified during the initial survey until the particular listed species issues have been resolved. | Report when listed species evidence of habitat is found                 | N/A | All appropriate agencies                                                          |
| B.III.B.1. | Listed Wildlife Species: If listed wildlife species are found, their presence shall be reported to the DEP SCO, the appropriate DEP District Office(s), the FWC's Office of Conservation Planning Services, the appropriate WMD, the appropriate local government(s) and the USFWS.                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Report when listed wildlife species are found                           | N/A | DEP, FWC, the appropriate WMD, the appropriate local government(s), and the USFWS |
| B.III.B.2. | Listed Vegetation Species: If listed vegetation species are found on public land or water, their presence shall be reported to the DEP SCO and the Florida Department of Agriculture and Consumer Services (DACS). Listed wildlife species and listed vegetation species on public land or water shall not be disturbed, if feasible.                                                                                                                                                                                                                                                                                                                                                                                                     | Report when listed vegetation species are found on public land or water | N/A | DEP SCO and DACS                                                                  |

|         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                             |                     |                |

| B.IV.A. | Prior to new construction in areas not previously surveyed, the Licensee shall conduct a survey of sensitive cultural resource areas, as determined in consultation with the Department of State, Division of Historical Resources (DHR). A qualified cultural resources consultant will identify an appropriate work plan for this project based on a thorough review of the certified facility. Prior to beginning any field work, the work plan will be reviewed in consultation with DHR. Upon completion of the survey, the results will be compiled into a report which shall be submitted to DHR. If feasible, sites considered to be eligible for the National Register shall be avoided during construction of the project and access roads, and subsequently during maintenance. If avoidance of any discovered sites is not feasible, impact shall be mitigated through archaeological salvage operations or other methods acceptable to DHR, as appropriate. | Conduct a survey prior to new construction in areas previously not surveyed | N/A                 | DHR            |
| B.IV.B. | If historical or archaeological artifacts or features are discovered at any time within the certified area, the Licensee shall notify the appropriate DEP District office (s) and the DHR, R.A. Gray Building, 500 S. Bronough Street, Rm 423, Tallahassee, Florida 32399-0250, telephone number (850) 245-6333, and the Licensee shall consult with DHR to determine appropriate action.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Notify if historical or archaeological artifacts or features are discovered | N/A                 | DEP and DHR    |
| B.VI.C. | FPL shall provide to Broward County copies of the regularly scheduled annual compliance tests as submitted to DEP.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Provide copies of the regularly scheduled compliance tests                  | 4th quarter of 2016 | Broward County |
