Project Description
The Martin County Shore Protection Project is located between DEP monuments R1 and R25.6 in Martin County. The project was federally authorized by the USACE in 1995. The initial restoration was completed in 1996, with subsequent nourishments constructed in 2002, 2005, 2013, and 2018. The requested funds are for year 4 post-construction physical and biological monitoring. Staff have determined that 91.94% of the project is eligible for state cost share.

The Department requests that the County receive recommendation from Department staff to be eligible for state cost share on year 4 post-construction monitoring. Formal recommendation and authorization has not yet been issued. Post-construction monitoring projects are not evaluated and ranked. All funding requests for post-construction monitoring projects are summed and appropriated before the ranked list of Feasibility, Design, and Construction phase project requests.
